

Intuitive Health and Riverview Health Break Ground in Fishers, IN First of Four New Dual Model ER & Urgent Care Facilities

FISHERS, Ind., Oct. 30, 2018 /PRNewswire/ -- Intuitive Health, a Texas-based company that is a leader in the dual model ER and urgent care under one roof, has broken ground with partner Riverview Health on the first of four new facilities in the Hamilton County area north of Indianapolis. Surrounded by key board members, partners and city officials, Seth Warren, CEO of Riverview Health, and Thom Herrmann, CEO of Intuitive Health, delivered details of the venture and the positive impact the facility will make to the families and economy of the county.

Fishers, which was recently voted the No. 1 place to live by Money Magazine, will be home to the first location. The site is located adjacent to the new Top Golf and will feature both a full-service emergency room and urgent care under one roof. The facility is designed to be welcoming with easy in-and-out access and will feature over an acre of green space.

"Patients want convenience, immediate access to care, better customer service and greater transparency into the billing process," said Thom Herrmann, CEO of Intuitive Health, a company that pioneered the combined emergency care and urgent care model in Texas over 10 years ago and whose facilities now rank in the top one percent of global retailers in customer satisfaction. "Bringing urgent care and emergency care to the families of Fishers allows us to meet many of their expectations."

In addition to Fishers, Intuitive Health and Riverview Health are building three additional locations in Hamilton County. The four clinics will be designed to simplify how patients access immediate, appropriate care while lowering their out-of-pocket costs. All of the facilities will be located in attractive retail settings and by offering emergency care and urgent care in one facility, the patient will no longer have to choose where to go to access the right care in their time of need.

The Fishers facility will be open by the end of 2019 and the remaining facilities are expected to open in early 2020.

###

About Intuitive Health

Founded in 2008, Intuitive Health changed the way patients access the ER and urgent care services by providing both under the same roof, accessed by the same entrance and offered in highly convenient retail locations. Intuitive has built an exceptional customer service model, with industry-leading satisfaction ratings. Intuitive saves patients, payors and employers millions of dollars each year by eliminating

inappropriate emergency room utilization. Intuitive partners with leading health systems nationwide to build, operate and launch combined ER & UC retail-located healthcare facilities. Please visit IHERUC.com for more information.

About Riverview Health

Riverview Health is comprised of a full-service, 156-bed hospital and 25 primary, immediate and specialty care facilities located throughout Hamilton County. Together, we provide comprehensive healthcare services in 35 medical specialties and have frequently been recognized for our clinical and service excellence.
