

Autocar's Badass Dump Truck Named One as a 2021 Contractors' Top 50 New Products

Equipment Today's 2021 Contractors' Top 50 New Products is the construction industry's only award program based on end-user input

BIRMINGHAM, Ala. (Sept. 7, 2021) – [Autocar, LLC](#), manufacturer of North America's oldest brand of specialized severe-duty vocational trucks, is named in Equipment Today's 2021 Contractors' Top 50 New Products for its severe-duty Class 8 [DC-64D Dump Truck](#).

Trademarked as BADASS, the DC-64D lives up to its name. The 2021 Contractors' Top 50 New Products is the construction industry's only award program based on end-user input. The program is based on user engagement over 16 months from [Equipment Today](#) magazine and [ForConstructionPros.com](#).

Autocar announced the [DC-64D severe-duty class 8 dump truck](#) this May as its fourth iteration of the DC-64 line.

Autocar partners directly with its customers to build trucks specifically engineered for their intended application. Additionally, Autocar collaborates closely with select body companies to provide industry-leading body-chassis integration through an extensive pre-engineering process.

This partnership and custom engineering have proven valuable in earning Autocar's DC-64D this prestigious recognition.

"Thank you to the readers of Equipment Today and ForConstructionPros.com for nominating our Badass Autocar DC-64D. It's a fantastic acknowledgment of the truck's safety, performance, uptime and user experience. This truck is truly BADASS," said Eric Schwartz, President of Autocar Industries. "This award confirms Autocar as the gold standard for customer-focused, purpose-built, severe-duty vocational trucks."

Autocar's dump truck is built from the ground up in Birmingham, Alabama and joined the DC-64R for refuse, DC-64M for mixers and DC-64P for pump. Engineered to handle any job thrown at it, the BADASS is purpose-built for construction and to solve issues in the industry not currently addressed by other suppliers.

The announcement was made official online at [ForConstructionPros.com](#) on Sept. 6 and is featured in the Sept. Issue of [Equipment Today](#) magazine.
