

ActivePure Systems Installed at SENTRAL College Penang, Malaysia

DALLAS (Dec. 22, 2022) – [ActivePure Technologies, LLC](#), the global leader in active surface and air purification technology, today announced that its disinfection systems are now installed in several high-profile locations throughout Malaysia. More recently ActivePure Technology was installed at a premier educational institution in Penang, Malaysia.

ActivePure partnered with local Malaysian distributor [Agrow Healthtech Sdn Bhd](#) to install its ActivePure Technology products at SENTRAL College Penang in George Town. SENTRAL College Penang reached out to work with ActivePure distribution partner Agrow Healthtech to evaluate their indoor environmental conditions and customize an indoor air and surface purification solution for their facilities. Agrow Healthtech, through its local distributors and agents, conducted several before and after tests during a six-week period. The testing compared total volatile organic compounds (TVOCs) and Formaldehyde (HCOC) from indoor air samples.

Following the installation of ActivePure Technology, the SENTRAL College Penang complex experienced 80%+ declines in TVOCs from baseline levels, progress which has been sustained. ActivePure was proven effective at reducing the concentration of airborne contamination up to 50% in 24 hours in a live environment.

"The health and safety of our staff and students are of primary and paramount importance. We are confident that the installation of Aerus products with ActivePure Technology will give them peace of mind inside our campus buildings. Additionally, as a member of the United Nation Global Compact Network, SENTRAL is proud to achieve another sustainable development goal on employee engagement recognition," said Dr. Chiang, CEO and principal of SENTRAL College Penang. SENTRAL College Penang plans to expand installation to their other complexes.

Located at the fringe of Penang's Heritage Enclave, SENTRAL College Penang serves to provide an excellent tertiary education platform to students in the northern region of Malaysia. The campus is housed in a gleaming 14-story building, equipped with cutting-edge facilities and amenities. The programs offered are approved by the Ministry of Education (MOE) and accredited by Malaysian Qualification Agency (MQA). The College works in partnership with University of Salford, Manchester, U.K. to provide affordable world-class U.K. degrees. The team at SENTRAL College Penang upholds its founding goal to develop students into wholesome capable individuals who will support their family, serve the community and strive for the country.

"Agrow Healthtech and their team in Malaysia have expanded its installation projects regionally as well as into the education sector, amongst several other prominent installation throughout Malaysia. We are extremely proud to partner with Agrow Healthtech in providing the industry best solutions for air and surface purification with ActivePure," said Anil Agrawal, vice president of international sales and operations of ActivePure.

Agrow Healthtech is a wholly owned subsidiary of [Agrow Corporation](#), a wholly owned subsidiary of OCB Berhad, a publicly listed group in the KL Stock Exchange. OCB Berhad is a Malaysia-based investment holding company. The company's segments include building materials, bedding products, consumer foods and others. OCB Berhad's subsidiaries include Dreambed (Malaysia) Sdn. Bhd., Bedco Sistem (M) Sdn. Bhd., Kingkoil Corporation (M) Sdn. Bhd. and Acrowyn (M) Sdn. Bhd.

"We are proud to help our educational institutions in improving their indoor environmental quality with ActivePure Technology. We recently have also been in conversation with several major educational and other sectors to deploy ActivePure Technology", said Robert Wong, managing director of Agrow Healthtech Sdn Bhd.

Amongst other major projects in Malaysia, Agrow Healthtech has also installed ActivePure Technology at following companies' facilities: The Sunway Group, The Toyota Service Centers in Kuala Lumpur, SNT Global Logistics, The Westport's logistics facility in Port Klang, Em Hub Kota Damansara, Amaya Saujana Condominiums, Aluminum Company of Malaysia Bhd. (ALCOM), American Express, Nirvana Group, TMC Life Sciences Berhad, Kian Joo Can Factory Berhad, are proud users of industry best indoor air and surface technologies.
