

Autocar Partners with Dayton Freight

BIRMINGHAM, Ala. (March 8, 2017) – The [Autocar terminal tractor](#) team have been working closely with Dayton Freight Lines, Inc. for many years. Together, we have developed an outstanding relationship, building a custom Autocar ACTT® truck that instils a sense of pride in each and every operator.

We've improved overall productivity, safety and vehicle uptime, ensuring Dayton Freight remains a leader in the industry.

"A few years ago, my Autocar ACTT® sales rep invited me on a tour of the plant. I was impressed with the quality of the production, as well as the people, who had a lot of pride in building their vehicles. That was when I spoke to the owner of our company and we decided to try a couple. The employees who operate the trucks really seem to like them and take care of them. We started with a couple in the first year and were so pleased that we bought another 10 trucks the following year." David Fast, Vice President of Maintenance, Dayton Freight Lines, Inc.

Founded in 1981, Dayton Freight Lines, Inc. is a private LTL freight carrier headquartered in Dayton, Ohio. Through their Strategic Alliance Network, Dayton Freight are able to serve all of the United States, Canada, Mexico, Puerto Rico & Guam.

The [Autocar ACTT® terminal tractor](#) is made for getting the job done fast, right and in the safest way possible. We've incorporated huge operator space, with the tallest and widest door openings, ensuring effortless access to the cab, and our premium cab suspension, easy steering, and extra powerful AC system takes comfort to the next level, giving your operators the freedom to focus on the job at hand.
